## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 10 October 2002.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### DETAILED ACTION

1. This office action is a response to the amendment filed on 10/10/2002.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Hirata (US PAT. 4,063,054).

Fig. 4a-4d of Hirata teaches a method for restricting travel of moving contact in a key switch comprising steps of: providing a spacer (13) and a biasing member (15); positioning the biasing member through the spacer; and installing the biasing member and the spacer in a contact carrier (21). In Fig. 4a and 4d, Hirata shows that the biasing member is located through the spacer after the spacer is pressed.

Re. Claim 2: Fig. 4d of Hirata '054 shows the spacer having a length substantial equal to the compressed biasing member length.

Re. Claim 3: Fig. 4a and 4d of Hirata '054 shows that the spacer engaging a moving contact (17) when the moving contact moves the safe travel distance (from a position of Fig. 4a to a position of Fig. 4d).

Re. Claim 4: Fig. 4a-4d of Hirata '054 shows that the biasing member engages to the moving contact.

Re. Claim 6: Fig. 4a-4d of Hirata '054 shows that the spacer aligns substantially parallel to a back of the moving contact.

Re. Claim 6: Fig. 4a-4d of Hirata '054 shows that the movement of the moving contact is relative from a front wall (Fig. 4a) to a rear wall (Fig. 4d) of the contact carrier and a centerline axis of the contact.

### ***Response to Arguments***

4. Applicant's arguments filed 10/10/2002 have been fully considered but they are not persuasive. Applicant argues that the prior art of record fails to disclose the claimed invention such as providing a spacer and a biasing member, positioning the biasing member through the spacer and installing the biasing member and the spacer in the contact carrier. Fig. 4a-4d of Hirata shows a spacer and a biasing member, which is positioned through the spacer, and the biasing member and the spacer positioned in a contact carrier. In Fig. 4a the biasing member is extruded from the spacer before the spacer is pressed. However, in Fig. 4d the biasing member is positioned through the spacer completely after the spacer is engaged with the moving contact (17) when the moving contact moves the safe travel distance.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
